• Update that the Dean of the Faculty of Education resigned in August 2019, which has been a great loss for the Faculty and its institutional memory which is needed to keep momentum going in the area of Indigenous Education. Two Acting Deans have been appointed with assurances that the commitments to expand Indigenous Education space for faculty members offices will continue. This space is separate and in addition from the Indigenous Learning Space adjacent to the Faculty of Education.
• There continue to be plans to redesign the Indigenous leadership structure within the Faculty of Education to elevate the Director and MPEd program to report to the Dean.
• Six Nations Polytechnic (SNP) community-based program partnership continues with an MPEd program which is now offered every year (as opposed to every other year). The second cohort at SNP in progress and will complete their Masters’ programs in April 2020. This type of community-based model requires ongoing attention and the Director of Indigenous Education requires support staff to facilitate the growing needs in the areas of community engagement and communications. A new staff position - a manager of Indigenous Education - is being explored as a possibility. The Faculty has indicated some openness to funding this new position and the job description is under development to be evaluated and posted.
• The Faculty of Education continues to progress with its required Indigenous education course where every BEd student will have taken Indigenous course before they graduate.
• The Faculty also offers many other Indigenous graduate level courses with a special focuses on Indigenous Education for EdD and MPEd.
